TERMS AND CONDITIONS

1. Orders are accepted against pre-payment only.
2. While placing orders, the name and address may please be given in block letters. **The Post Office, District, State and the PIN CODE may also be indicated.** When bulk orders are to be executed through railway parcels the name of the Railway Station may also be given.
3. Payments should be made through Bank Draft only. The remittance may be drawn in favour of the “**Business Manager, ICAR, New Delhi**”.
4. Foreign prices mentioned are inclusive of postal and forwarding charges by air mail.
5. Discount:
Educational and Agricultural Libraries are entitled for discount of 15%, excluding journals.
6. Titles not listed are out of print.

प्रकाशन मंगवाने की नियमावली

1. पुस्तकें/पत्रिकाएं केवल अग्रिम भुगतान प्राप्त होने पर ही भेजने की व्यवस्था है।
2. कृपया अपने ऑर्डर के साथ अपना नाम, पता, डाक घर आदि का पूर्ण विवरण व पिन कोड नम्बर अवश्य लिखें। थोक आर्डर द्वारा मंगवाने पर रेलवे स्टेशन या निकटतम शहर का नाम अवश्य लिखें।
3. प्रकाशनों का भुगतान “व्यवसाय प्रबंधक, भारतीय कृषि अनुसंधान परिषद, नई दिल्ली” के नाम बैंक ड्राफ्ट द्वारा भेजें।
4. छूट:
कृषि एवं अन्य शैक्षिक संस्थानों के पुस्तकालय 15% छूट पा सकते हैं। यह छूट पत्रिकाओं पर लागू नहीं है।
5. जिन पुस्तकों के नाम सूचीपत्र में नहीं हैं, वह पुस्तक उपलब्ध नहीं है।

HANDBOOK OF AGRICULTURAL ENGINEERING

Indian Council of Agricultural Research
New Delhi

Agricultural engineering interventions have led to significant improvement in agricultural productivity by timeliness of operations, reduction in drudgery, cultivation intensity. Timely farm operations with efficient use of inputs, post-harvest processing and value addition to agricultural produce and conservation and sustainable use of natural resources are essential for ensuring higher returns to the cultivators.

This is the maiden attempt of the Indian Council of Agricultural Research to publish the Handbook of Agricultural Engineering. The

handbook comprises 50 chapters under four sections, namely farm machinery and Power, Soil and Water Engineering, Energy in Agriculture and Agro-Process engineering. This publication would be useful to farmers, students, researchers, extension workers, policy makers, entrepreneurs and other stakeholders.

Postage Rs 250/-

The Handbook of Horticulture: the Encyclopaedia of Horticulture, is first ever published by the DKMA, ICAR. Divided into 13 Sections, the Handbook of Horticulture consists of package of standardized cultural practices of Fruit, Vegetable, Spices, Plantation, Ornamental, Medicinal, Aromatic, Potato and Tuber crops in details, while General Horticulture, Mushrooms, Disease and Pest Management, and Postharvest Management have been discussed in a very

laudable and lucid style separately. The book is ideal for amateur horticulturist, farmers, students, gardeners, extension personnel, scientists, policy-makers, research managers etc.

HANDBOOK OF ANIMAL HUSBANDRY

Price Rs 1,000/-; US\$ 150

Postage Rs 250/-

Livestock sector has created a significant impact on equity in terms of employment and poverty alleviation. After staple crops, livestock sector is the second most important contributor to the agricultural economy. The producer prices of meat, eggs and milk, in India appear to be highly competitive as the domestic producer prices of these products are quite low compared to the ex-farm gate prices of major exporters in the world markets. A knowledge resource is essential to harness the potential of animal production. The

Indian Council of Agricultural Research brought out first edition of Handbook of Animal Husbandry in 1962 for serving the end-users ranging from livestock owners to academicians. This is the Fourth revised and enlarged edition of Handbook of Animal Husbandry which include 48 chapters under nine sections, such as Animal Genetics and Breeding; Animal Nutrition and Feed Technologies; Animal Management; Animal Reproduction; Animal Health Management; Animal Biotechnology; Animal Products, Technology and Machineries; Economics and Trade of Livestock and Poultry Enterprise; and Social Sciences. It has 19 new chapters like Impact of Biotechnology, Nanotechnology: Applications in Animal Sciences; Carbon trading: Mechanisms and Opportunities In Livestock Sector; Intellectual Property Rights Regime; Indigenous Technical Knowledge etc.; and old chapters were revised holistically. The fourth revised and enlarged edition of *Handbook of Animal Husbandry* will prove useful to the students, teachers, livestock/poultry farmers, and to especially those who visualize the economic growth of country with the support of livestock sector.

HANDBOOK OF FISHERIES AND AQUACULTURE

Price Rs 1,000/-; US\$ 150

Postage Rs 250/-

(Edition 2011)

Fisheries not only contribute to nutritional security but also provide employment and livelihood to millions of people.

The different segments of fisheries — marine capture fisheries, mariculture, coastal aquaculture, inland capture fisheries, freshwater aquaculture, coldwater fisheries and aquaculture, fish processing and post-harvest technology and trade — have evolved over the years, assimilating traditional know-how and practices along with scientific innovations and technologies during the past five decades. The fast developments in integration with

other farming systems as well as diversification in terms of ornamental fish culture, sports fisheries, aqua-tourism etc. are spectacular.

Thus, in the first edition of the Handbook of Fisheries and Aquaculture, an effort has been made to document present status, developments and future possibilities in different segments. While major fisheries in terms of resources including inland fisheries have been presented, emphasis has also been laid on different culture systems in marine, brackish and freshwater environments.

Through 44 chapters, a comprehensive information about all areas of fisheries and aquaculture has been provided in this Handbook, which would be useful to students, researchers, planners, farmers and all stakeholders in fisheries and aquaculture.

CD of Inventory of Indigenous Technical Knowledge (ITK) in Agriculture

Indian Council of Agricultural Research launched a nationwide Mission Mode project on collection, documentation and validation of indigenous technical knowledge under National Agricultural Technology Project (NATP). Information on ITK was collected from the primary sources through the voluntary disclosure. Simultaneously, an effort was also made to collect and compile the practices on ITK from the available literature, books, journals, theses etc. and published into following seven documents:

- Inventory of Indigenous Technical Knowledge in Agriculture (Document 1)
- Inventory of Indigenous Technical Knowledge in Agriculture (Document 2)
- Inventory of Indigenous Technical Knowledge in Agriculture (Document 2, Supplement 1)
- Inventory of Indigenous Technical Knowledge in Agriculture (Document 2, Supplement 2)
- Validation of Technical Knowledge in Agriculture (Document 3)
- Cross Sectoral Validation of Indigenous Technical Knowledge in Agriculture (Document 4)
- Indigenous Technical Knowledge in Agriculture-Geographical Indication of Plant Species (Document 5)

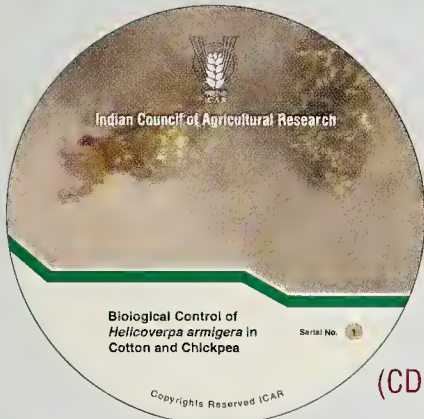

All ITK documents have been classified under different subject matter areas viz., rain water management, soil and water erosion, tillage and intercultural management, crops and cropping systems, pest and disease management, soil fertility management, farm implements, post-harvest technology, Grain/seed storage, horticultural crops, veterinary science and animal husbandry, fisheries, ethno-botany and agro-biodiversity, weather forecasting, food product development, agro-animal based yarns/natural dyes, and low cost housing materials.

Set of (Seven) CDs : Rs. 2,100/- ; US \$ 315; Postage Rs. 200/-
Single CD : Rs. 300/- ; US \$ 50 ; Postage Rs. 50/-
